

Druck's Test & Calibration range

Druck's Test & Calibration range has been developed with over 45 years' experience to utilise the most advanced technology and to deliver the highest quality results on the market.

Pressure calibrators

DPI 610 & DPI 610-IS

The legacy pressure calibrator with high accuracy pressure generating functions

DPI 611

Compact high accuracy handheld pressure calibrator with integral pump

DPI 612

The complete pressure calibrator with interchangeable pressure modules

Multifunction calibrators

DPI 620 Genii-IS & DPI 620 Genii-IS

Multifunction high accuracy field calibrator and communicator

PACE Pressure controllers

PACE 1000

High precision pressure indicator for testing, monitoring and calibration

PACE 5000

Single channel modular pressure controller delivering high speed, high precision control with a range of test options

PACE 6000

Dual channel modular pressure controller delivering high speed, high precision control with a range of test options

Pressure indicators & gauges

DPI 705E & DPI 705E-IS

New high accuracy pressure and temperature with plug and play remote sensors

DPI 104 & DPI 104-IS

A microprocessor-controlled digital pressure gauge that combines precision and functionality in a compact, robust and simple-to-use package

Air Data Test Sets (ADTS)

ADTS 500 Series

Our range of high accuracy and reliability for a solution to any aircraft application

ADTS 405 MkII

Highest performance test system with military and civilian applications

Calibration management software

4Sight2 Calibration Software

Our bespoke software solution to improve process efficiency and an effective calibration solution whilst reducing defect

Dry block and liquid temperature calibrators

Dry TC 165/650

Incorporating the latest metal block and electronic control technology and offer a choice of precision bored well inserts to accommodate a wide range of test devices.

Liquid TC 165/255

Multi-purpose calibrators combine the portability of dry block calibrators with the flexibility of liquid immersion baths to enable the testing and calibration of virtually any shape and size of devices

Calibrator accessories

PM620 & PM620-IS

Our high accuracy, portable and fully interchangeable pressure module

TERPS PM & TERPS PM-IS

Our high accuracy, portable pressure modules, utilising TERPS technology offering up to 4X the accuracy and stability of the next leading pressure module

PV210, PV211, PV212 Hand Pumps

Lightweight, rugged and durable hand pump range offering efficient generation of pressure for a wide range of applications

PV 621 & PV 622 Pressure Generation bases

Featuring an innovative dual stage system incorporating a pump to generate pressure and a press to intensify pressure

Electrical calibrators

DPI 800 Series

The cost effective, single hand use tool covering a wide application of uses, all with a large backlit display and plug and play pressure modules

UPS-III

A rugged, compact loop calibrator high high accuracy and portability

Druck pressure sensors range

We have a wide range of platforms that can be configured to meet the individual needs of your business, whether that be in Industrial or Aerospace applications. Our platforms are designed to be used directly or as the basis of a customised solution.

Configurable pressure sensors

UNIK family

UNIK5000

Configurable General Purpose Analogue sensor
A Unique solution to your pressure measurement needs built to order on short lead-times.
Common configurations available from stock
Applications
Multiple Industrial

UNIK5600 & 5700

5600 316L Marine
Certified and 5700
Titanium Marine
Certified

UNIK5800

5800 Explosionproof
for oil and gas

UNIK5900

5900 Explosionproof
for oil and gas /power

Other

PTX 661 Hammer/Wing Union Transmitter

5kpsi, 6kpsi, 10kpsi, 15kpsi
WECO 1502/2202
connections
Field repairable
(replaceable transmitter)

Motorsport 4300/4400

17.5 1800 Series
package
Applications:
On race pressure sensors
also used in UAV's and
auto-test

1800 Series

17.5 and 25 mm
packages
Applications:
Reliable measurement
of liquid level

Modules

12.5 to 25 mm packages
Applications:
Process Pressure
transmitter manufacture
Mass Flow Controllers
IoT system builders

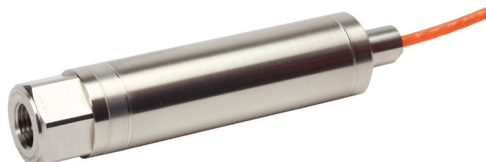

OEM

Our Engineering team
are available to modify
all these products
for your unique
requirements

Digital pressure sensors

TERPS

TERPS 8000

Ultra high accuracy
0.01% FS
Applications:
Power generation
Aero-test

TERPS 8100

Ultra high accuracy
0.01% FS
Applications:
Barometers
Aero-test

DPS5000 12C

High accuracy 0.1% FS
Low Power
Applications:
Embedded sensor
for OEM's remote
monitoring on Gas and
water pipelines

DPS5000 SDI-12

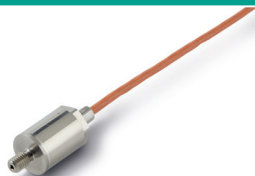

High accuracy 0.1% FS
Low Power
Applications:
Remote monitoring
of water resources for
system integrators

DPS5000 CANBus

High accuracy 0.1% FS
Fast response
Applications:
Automotive Aero test
Industrial Control

Aerospace pressure sensors

PDCR 300

General use for Aerospace Test
Pressure range: 0 to 35MPa absolute
All Stainless Steel 316L, 17/4PH
& INCONEL 625

3000 Series

Amplified Aerospace Pressure Transducers
High accuracy and stability
Wide operating temperature range

3700 Series

Absolute, gauge and sealed gauge options available
Standard accuracy of $\pm 0.2\%$ FS
Applications
Accurate pressure measurements for use in aerospace ground and flight tests
Suitable for Automotive test and many Industrial applications

Subsea pressure sensors

PTX300 Subsea Pressure Transmitter

Better than 0.1% accuracy
High reliability and excellent long-term stability
External/ambient pressure up to 300 bar
All Electron Beam welded construction

PTX400 Subsea Wellhead Pressure/Temperature Transmitters

Better than 0.05% accuracy
High reliability and excellent long term stability
Standard pressure ranges up to 690 bar, temperature measurement -40 to 150°C
External pressure to 3000 mH₂O
